MADE IN USA

Alkaline High Foam Detergents

Gale Force

High Powered Foaming Alkaline Food Plant Detergent

Super strength alkaline detergent dissolves the toughest deposits of protein, sugars, carbohydrates, fats, oils, grease and carbon. Very high foaming for extended contact time and improved cleaning performance on vertical surfaces. Ideal for removing boiler sludge and cleaning beer kegs. An excellent, versatile detergent for food plants, dairies, beverage plants, breweries, smokehouses, meat and poultry plants, and many other operations.

PowerChlor

High Foaming Chlorinated Alkaline Food Plant Detergent

Superb chlorinated alkaline detergent for foam cleaning in food processing plants, breweries, beverage facilities, supermarkets, and most other food preparation areas. Produces abundant clinging foam which adheres to vertical surfaces, improving contact time and soil removal. Contains chlorine for excellent protein removal, destaining and deodorizing. Alkalis attack and dissolve fats, oils, grease and grime. Ideal for use with foam generating equipment, pressure washers or manual applications. Rinses completely. USDA A1.

Work Horse

High Foaming Metal Safe Chlorinated Food Plant Detergent

Provides deep cleaning of food plant surfaces without attacking soft metals. Formulated for use in food processing plants, breweries, beverage facilities, supermarkets, and most other food preparation areas. Produces abundant clinging foam which adheres to vertical surfaces, improving contact time and soil removal. Contains chlorine for excellent protein removal, destaining and deodorizing. Effective on fats, oils, grease and grime. Ideal for use with foam generating equipment, pressure washers or manual applications.

Brilliant

Low Foam CIP Acid Blend for Stainless Steel Passivation

A powerful blend of phosphoric and nitric acids formulated to passivate and brighten stainless steel tanks, transfer lines, kegs and other stainless surfaces. Removes spots, deposits and micro-films of iron oxide (rust), foreign matter, beerstone, oxalates and other inorganic desposits from tank surfaces. Prevents these contaminants from leaching iron ions into beer, wine or other beverages and negatively affecting quality and taste. Leaves stainless surfaces sparkling with a passivation layer of chromium oxide. Low foaming formulation for use in CIP, manual or soak cleaning processes.
