

Product Bulletin

AutoJet™ **Part B**

Touchless Automotive Presoak and Pressure Wash Detergent

A high performance alkaline detergent for use in car washes and pressure washing applications. Removes road film and soil buildup from automotive and other surfaces when applied as a two-part system after **AutoJet Part A**. Produces abundant foam for increased contact time on vertical surfaces and improved cleaning performance. Contains a special blend of solvents, alkalis and surfactants in addition to special additives for rapid soil penetration and emulsifying. Ideal for use in self serve and touchless automatic car washes, or with portable pressure washing equipment.

Directions for Use

This product is designed to be used in conjunction with **AutoJet Part A** as a two-component cleaning process. For best results, first apply a solution of **AutoJet Part A** to the vehicle or other surface to be cleaned. Consult label for proper mixing instructions. Apply to dry surface--do not pre-wet--at low pressure using foaming spray nozzles or foam aeration if possible. Allow several minutes contact time, then apply **AutoJet Part B** solution at a feed rate of 1-3 ounces per gallon of hot water, again at low pressure. Allow several minutes contact time for detergents to penetrate and dissolve soils, then rinse completely with hot, high pressure water (1,000 psi or higher).

Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Technical Specifications

Appearance	Green Liquid
Odor	Characteristic
Alkalinity (as NaOH)	High
pH (1% solution)	>12.0
Foaming	High
Flash Point	>200°F
Bulk Density	approx. 9.00 lbs./gal.
Solubility in Water	100%
Rinsing	Excellent
Chlorine Content	None
Phosphorous as P ₂ O ₅	None
Hard Water Performance	Very Good
Freeze/Thaw Stability	Complete

Package Size **Product Code**

5 gal. pail	#81305
55 gal. drum	#81355
