

## Product Bulletin

# BLUE LAGOON™

## *Thickened Disinfectant Bowl & Restroom Cleaner*

A multi-functional acidic disinfectant-cleaner for use on non-porous surfaces in restrooms, shower rooms, swimming pool areas, etc. EPA registered. Provides effective bactericidal performance against Salmonella choleraesuis, Staphylococcus aureas and Pseudomonas aeruginosa. Thickened formula clings to vertical surfaces for improved cleaning performance. Immediately dissolves hard water stains, lime scale, rust, oxidation, uric acid salts, mineral deposits and other difficult inorganic soils. Effectively cleans toilet bowls, urinals, bath tubs, sinks, tile walls and floors, countertops, backsplashes, drinking fountains, stainless steel surfaces, swimming pools decks and many other areas. Non-fuming. Not recommended for bright chrome fixtures (chrome, brass, etc.). Pleasant fragrance.

**New Claims!** This product is now effective against an expanded list of bacteria, including Methicilin Resistant Staphylococcus Aureus (MRSA), Escherichia Coli, and Vancomycin Resistant Enterococcus faecilis. Also now effective against HIV-1, Herpes Simplex types 1 and 2, and more.

### Directions for Use

Before use, consult product label for complete directions and precautions.

**To Clean and Disinfect Toilet Bowls:** Flush toilet and use toilet mop to push water from the bowl over the trap. Press swab mop against bowl to remove excess water then saturate mop with 1 to 2 ounces of this product while holding bottle and mop applicator over bowl. Swab bowl completely making sure to get under the rim. Let stand for 10 minutes then flush. Rinse applicator completely.

**To Clean and Disinfect Urinals:** Flush to remove heavy soil. Remove screens and strainers. Then squirt 1 to 2 ounces of this product around edges and top. Allow to flow down over surfaces. Allow it to stand several minutes before scrubbing, then flush and rinse. To disinfect, allow solution to remain in urinal at least 10 minutes after scrubbing.

### Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

### Technical Specifications

Appearance	Opaque Green Liquid
Odor	Mint
Alkalinity (as NaOH)	None
pH (concentrate)	<2.0
Foaming	Moderate
Flash Point	>200°F
Bulk Density	approx. 8.80 lbs./gal.
Solubility in Water	100%
Rinsing	Good
Chlorine Content	None
Phosphorous as P <sub>2</sub> O <sub>5</sub>	None
Hard Water Performance	Very Good
Freeze/Thaw Stability	Good

### Package Size      Product Code

12x1 qt. case

#37212
