

Product Bulletin

Chlorinated Machine Dishwashing Detergent

A premium quality detergent for use in high or low temperature dishmachines. Heavily fortified with alkaline builders, soil emulsifiers, water conditioning and anti-redeposition agents plus special destaining ingredients for unsurpassed results on glassware, silverware, coffee cups, etc. Ideal for use in hard water accounts. Safe for use on aluminum cookware and other surfaces made of non-ferrous metal.

Directions for Use

For manual dispensing into dishwasher, follow dishmachine manufacturer's directions, or use about 1/2 to 1 cup per washload depending on the machine's size. For automatic dispensing, consult your Service Representative, who will determine the correct concentration based on your operating conditions. Good dishwashing requires proper water temperatures, correct procedures, proper chemical injection and mechanical action by the dish machine. Your Service Representative will review these requirements during regular service calls. For automatic dispensing only--not for manual dishwashing.

Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Technical Specifications

Appearance	White Powder
Odor	Chlorine
Alkalinity (as NaOH)	High
pH (1% solution)	>10.0
Foaming	None
Flash Point	NA
Bulk Density	approx. 10.00 lbs./gal.
Solubility in Water	100%
Rinsing	Very Good
Chlorine Content	<5.0%
Phosphorous as P ₂ O ₅	<9.0%
Hard Water Performance	Excellent
Freeze/Thaw Stability	NA

Package Size Product Code

25 lb. pail	#13925
50 lb. drum	#13950
100 lb. drum	#13901
