ControlPaks™

Portion Controlled Powder Detergents

Pot & Pan Detergent

A professional quality, environmentally friendly powdered detergent for manually washing pots, pans, silverware, dishes, glassware, and other foodservice utensils and equipment. Ideal for use in restaurants, catering facilities, institutional kitchens and other foodservice operations. Produces rich, long-lasting foam which cuts through grease, oil, protein, starch and other food soils. Fortified with the highest quality surfactant system for unsurpassed performance. Contains emollients for enhanced mildness to the skin. Packaged in water-soluble, pre-measured packets for controlled chemical usage without the need for dispensing. Provides controlled point-of-use mixing, dilution and consistent solution strength. Biodegradable packaging reduces waste. Dissolves quickly and completely. A superior product for cleaning results and cost control. Fresh fragrance.

Directions for Use

For normal soil, use one packet of this product in a sinkful of hot water (up to 5 gallons capacity). For heavy grease, use two packets per sinkful. Agitate water vigorously to dissolve powder more quickly and enhance foam level. Scrub and clean as usual, rinse in potable water, then sanitize as required by local regulations. For baked-on soils on pots, pans, utensils and other cookware, allow items to soak for 15-30 minutes before washing. Wash glassware before more heavily soiled items. Reduce the amount of water in the sink and change water frequently. Follow local regulations for rinsing and sanitizing.

Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Technical Specifications

Appearance	Pink Powder
Odor	Cherry
Alkalinity (as NaOH)	None
pH (1% solution)	<8.0
Foaming	Very High
Flash Point	NA
Bulk Density	approx. 7.00 lbs./gal.
Solubility in Water	100%
Rinsing	Excellent
Chlorine Content	None
Phosphorous as P ₂ O ₅	None
Hard Water Performance	Very Good
Freeze/Thaw Stability	NA

Package Size

90x½ oz. tubs, 2/case

Product Code

#CP10/29050
