## **Glisten**<sup>TM</sup> *Premium Quality Rinse Additive*

Heavy duty rinse additive/drying agent formulated for use in high temperature commercial dishwashing machines. Absolutely premium quality formula for top performance in all situations. **Glisten** helps eliminate water spotting and produces fast drying of machine washed items. Eliminates the need for towel drying ( a health code violation in most areas), which is time consuming, costly and contributes to dish breakage. Highly concentrated.

### **Directions for Use**

**Glisten** is designed to be dispensed with equipment installed and/or approved by your Service Representative, who will determine the correct concentration based on your operating conditions. For normal applications, this product should be injected into the final rinse water of the dishmachine at a concentration of 40 to 100 ppm. The amount required and the rinsing and drying performance will be affected by water hardness and rinse water temperature along with the dishmachine's mechanical action. Your Service Representative will review these factors during regular service calls and will make adjustments as needed to produce good results.

**Note:** For proper sanitizing and drying, the final rinse water temperature must be maintained between 180° and 195°F.

### **Safety Reminder**

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

### **Technical Specifications**

Appearance	Blue-Green Liquid
Odor	Isopropanol
Alkalinity (as NaOH)	None
pH (1% solution)	<7.0
Foaming	None
Flash Point	>200°F
Bulk Density	approx. 8.40 lbs./gal.
Solubility in Water	100%
Rinsing	Excellent
Chlorine Content	None
Phosphorous as P <sub>2</sub> O <sub>5</sub>	None
Hard Water Performance	Very Good
Freeze/Thaw Stability	Complete

### **Package Size**                      **Product Code**

4x1 gal. case	#15241
5 gal. pail	#15205
