A New Direction
for Healthy Sanitation

Bathroom Cleaner Concentrate

High performance formula delivers superior cleaning of all restroom surfaces, including tile floors, countertops, backsplashes, shower walls and floors, dividers, toilets and urinals, tubs, pools, whirlpools and surrounding decks, sinks, faucets, shower heads and controls, other fixtures, shower curtains, etc. Contains a powerful, synergistic blend of surfactants, solvents and soil suspension agents for impressive cleaning performance. Dissolves soap scum, mildew, hard water mineral deposits, oil, grease and uric salts. Penetrates grout lines and lifts out embedded dirt and grime. Will not dull or etch fixtures made of polished chrome, brass or other metals. Also safe on glass surfaces, marble, porcelain, and plastic. Mildly acidic. Clean citrus fragrance.

Directions for Use

Spray Cleaning: Dilute this product at the rate of 8-16 ounces per gallon of warm water (8 - 16:1) into a properly labeled spray bottle. Spray solution onto surface to be cleaned. Wipe with a soft cloth or sponge, then rinse with clean water.

Mop & Bucket Cleaning: Sweep floor areas to be cleaned. Dilute at 8-16 ounces per gallon of warm water (8 - 16:1) into mop bucket. Apply solution with a clean mop, then scrub to remove soil. Allow solution several minutes to remain on surface to penetrate and dissolve soils. Rinse away solution with clean water, using a mop, sponge or rag to absorb excess liquid. Allow to air dry. For badly soiled tile or grout lines, apply product at full strength. Agitate with a mop, scrub brush or deck brush, allow 3-5 minutes for detergent to dissolve soils, then rinse completely with clean water. Repeat as necessary.

Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Disposal: Please dispose of this product and waste generated from this product in accordance with applicable local, state and federal regulations.

Technical Specifications

Appearance	Green Liquid
Odor	Citrus
Alkalinity (as NaOH)	None
pH (concentrate)	approx. 2.20
Foaming	High
Flash Point	>200°F
Bulk Density	approx. 8.45 lbs./gal.
Solubility in Water	100%
Biodegradability	Complete
Toxicity	Very Low
Hard Water Performance	Very Good
Freeze/Thaw Stability	Do Not Freeze

Package Size Product Code

4x1 gal case

#GP0541
