A New Direction  
for Healthy Sanitation

## HD Cleaner Degreaser Concentrate

A high performance cleaner-degreaser for use on floors, walls, equipment, machinery and other non-porous hard surfaces. Fortified with a synergistic combination of solvents, surfactants and alkalis. Penetrates and emulsifies grease, oil and soils rapidly and completely. Formulated for a wide range of applications. Leaves surfaces thoroughly clean. Highly dilutable and economical to use. Pleasant citrus fragrance.

### Directions for Use

**Spray Cleaning:** Dilute this product at the rate of 4 ounces per gallon of water (32:1) into a properly labeled spray bottle. Spray solution onto surface to be cleaned. Agitate with a rag or sponge to remove soils, then rinse with clean water.

**Mop and Bucket Cleaning:** Sweep floor area to be cleaned. Depending on soil level, dilute at 4 - 8 ounce per gallon of water (16 - 32:1) into mop bucket. Apply solution with a clean mop, then scrub as needed with mop or a deck brush to remove grease and soils. Allow several minutes contact time to allow detergent to penetrate and dissolve soils. Rinse with clean water to remove any chemical residue, using a mop, sponge or rag to absorb excess liquid.

**Spot or Stain Removal:** For spot removal or very heavy grease or soil accumulations, use at 16 - 32 oz. per gallon of water (4 - 16:1), or at full strength of needed.

### Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

**Disposal:** Please dispose of this product and waste generated from this product in accordance with applicable local, state and federal regulations.

### Technical Specifications

Appearance	Purple Liquid
Odor	Citrus
Alkalinity (as NaOH)	Moderate
pH (concentrate)	approx. 10.80
Foaming	Moderate
Flash Point	>200°F
Bulk Density	approx. 8.65 lbs./gal.
Solubility in Water	100%
Biodegradability	Complete
Toxicity	Very Low
Hard Water Performance	Good
Freeze/Thaw Stability	Do Not Freeze

### Package Size

### Product Code

4x1 gal case
