A New Direction  
for Healthy Sanitation

## pH Neutral Multi-Surface Cleaner

A professional quality detergent for removing built-up dirt and grime from all types of floors. Neutral pH in solution makes this product ideal for use on finished floors without dulling or stripping. Also an effective cleaner for countertops, walls, cabinets, equipment and many other hard, non-porous surfaces. Contains no harmful alkalis, solvents or other ingredients. Provides rapid and complete cleaning performance. Formulated for use in a wide variety of applications. May be used with mop and bucket, floor machine or manual cleaning operations. highly dilutable and economical to use. An essential product for a quality maintenance program.

### Directions for Use

**Cleaning Hard Surfaces:** Dilute 2 ounces of this product per gallon of cold water (1:64) into a mop bucket, hand-held trigger sprayer or pump-type garden sprayer. Apply solution liberally to surface to be cleaned. Scrub as needed with a clean mop, brush, sponge or cloth to help remove grease and grime. Allow several minutes contact time to penetrate soils, then rinse completely with clean water.

**Cleaning Finished Floors:** Dilute 2 ounces of this product per gallon of cold water (1:64) into a mop bucket. Apply solution to floor with a clean mop, then scrub as needed for soil removal. Allow several minutes contact time to penetrate dirt and grime, then rinse completely with clean water. Allow floor to dry before use. Spray buff as required to restore floor's gloss. Overuse of this product may cause dulling.

**Automatic Floor Scrubbers:** Dilute 2 ounces of this product per gallon of cold water in the machine's solution tank. Scrub and rinse floor as recommended by machine manufacturer.

### Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

**Disposal:** Please dispose of this product and waste generated from this product in accordance with applicable local, state and federal regulations.

### Technical Specifications

Appearance	Yellow Liquid
Odor	Characteristic
Alkalinity (as NaOH)	None
pH (concentrate)	approx. 10.30
Foaming	Moderate
Flash Point	>200°F
Bulk Density	approx. 8.73 lbs./gal.
Solubility in Water	100%
Biodegradability	Complete
Toxicity	Very Low
Hard Water Performance	Good
Freeze/Thaw Stability	Do Not Freeze

### Package Size

### Product Code

4x1 gal case
