

Product Bulletin

Lift Off Multi-Purpose Non-Emulsifying Degreaser

A super-strength, 100% active citrus-based non-emulsifying cleaner-degreaser for a variety of applications. Excellent for degreasing engine parts, motors, industrial equipment, tanks, concrete floors, and many other hard surfaces. High solvent content works quickly and completely on many types of cutting oils, lubricants, inks, adhesives, tar, grease, asphalt, rubber tire marks, etc. This product will not mix with or emulsify in water, making it ideal for lift stations and oil/water separators. Fortified with d'limonene, a citrus by-product which provides outstanding solvency along with a pleasant orange fragrance.

Directions for Use

Prior to use, test this product in an inconspicuous area to assure compatibility with surface. **Lift Off** should not be diluted with water--use at full strength.

General Degreasing of Parts, Equipment, etc: Apply to area to be cleaned. Agitate surface with a rag, sponge or brush. Allow several minutes contact time to penetrate soils. To remove residue completely, rinse with a water-based degreaser using a pressure washer. If oil/water separators are being used, do not use water-based degreaser. Rinse completely with hot, high pressure water only. Allow runoff to stand for 30-60 minutes to allow separation into two layers. Dispose of properly.

Degreasing Motors: Spray or wipe undiluted product onto motor surface. Before starting, blow out remaining solvent with compressed air.

Lift Stations: Pour enough of this product onto effluent to create a ½" - 1" layer of product on top (normally 32 - 64 ounces per square foot). Reapply as needed.

Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Technical Specifications

Appearance	Clear Blue Liquid
Odor	Characteristic
Alkalinity (as NaOH)	None
pH (1% solution)	NE
Foaming	None
Flash Point	>100°F
Bulk Density	approx. 6.4 lbs./gal.
Solubility in Water	Insoluble
Rinsing	Non-Rinsing
DOT Classification	None
Phosphorous as P ₂ O ₅	None
Hard Water Performance	NA
Freeze/Thaw Stability	Will Not Freeze

Package Size

55 gal. drum

Product Code

#97055
