REFRESH

Non-Acid Bathroom Cleaner

Disinfectant • Cleaner • Deodorizer
Mildewstat • Fungicide • Virucide

Formulated especially for use as a general non-acid cleaner and disinfectant for use in homes, hospitals, nursing homes, schools, hotels and restaurants. **Refresh** disinfects a variety of areas in bathrooms and kitchens, including surfaces made from stainless steel, porcelain, glazed ceramic tile, and plastic. Thickened formula clings better to vertical surfaces and improves cleaning performance. Deodorizes areas which are generally hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements and restrooms. Effective against a variety of bacteria, including Staphylococcus, Salmonella, Pseudomonas, Listeria and E. coli. Hospital strength. Fungicidal against the Athlete's Foot Fungus in locker rooms, exercise facilities, and shower and bath areas. Effectively inhibits the growth of mild and mildew and their odors on hard surfaces. Pleasant fragrance.

New Claims! This product is now virucidal against HIV-1, the Hepatitis B Virus (HBV), the Hepatitis C Virus (HCV), Herpes Simplex Types 1 and 2, as well as other viruses.

Directions for Use

Wall, floors, and other hard surfaces: Apply **Refresh** at full strength to walls, floors, countertops, sinks, tables or other hard surfaces with a cloth, mop or sprayer. Treated surfaces must remain wet for at least 10 minutes. Rub with a brush, sponge or cloth, then rinse completely with clean water. A pre-cleaning step is required for heavily soiled surfaces.

Toilets and urinals: Using a swab applicator, remove water from bowl by forcing out through trap. Remove excess water from swab. Apply 1-2 ounces of **Refresh** onto surface to be cleaned and disinfected. Swab bowl interior thoroughly, especially under the rim. Allow this product to remain wet on surfaces at least 10 minutes. Flush toilet and rinse swab.

Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Technical Specifications

Appearance	Thickened Blue Liquid
Odor	Fresh and Clean
Alkalinity (as NaOH)	None
pH (1% solution)	approx. 8.0
Foaming	Moderate
Flash Point	>200°F
Bulk Density	approx. 8.36 lbs./gal.
Solubility in Water	100%
Rinsing	Good
Chlorine Content	None
Phosphorous as P ₂ O ₅	None
Hard Water Performance	Good
Freeze/Thaw Stability	Complete

Package Size Product Code

12x1 qt. case
