StoneCutter™ No-Rinse Acid Cleaner-Sanitizer

A concentrated, EPA registered, acid cleaner sanitizer for use on food processing and dairy equipment in water up to 500 ppm hardness (as CaCO₃). At a dilution rate of ½ oz. per 2 gallons of water (150 ppm active quat), this product will clean and sanitize dairy product dispensing equipment, as well as hard non-porous surfaces and equipment in food, restaurant, dairy, beverage and meat processing plants. Effective against milkstone and hard water scale buildup in tanks, lines, blenders, filling and packaging equipment, and much more. **StoneCutter** is effective against a lengthy list of bacteria, including E. coli, Listeria monocytogenes, Staphylococcus aureus, Salmonella enterica, and more.

Directions for Use

Consult product label for complete directions for dilution and usage.

To Sanitize Dairy Product Dispensing Equipment. Wash equipment with a compatible detergent and rinse prior to sanitizing. Fill equipment with a solution of ½ oz. per 2 gallons of water (150 ppm active quat). Allow solution to remain in equipment for at least 60 seconds, then drain thoroughly before reuse and allow to air dry. Do not rinse. Consult label for instructions on removable parts and items too large to sanitize by immersion.

To Sanitize Hard Nonporous Surfaces and Equipment in Food, dairy, Beverage and Meat Processing Plants. Remove gross filth and soil by preflush or prescrape. Wash surfaces with a compatible detergent and rinse with potable water prior to sanitizing. Apply a use solution of ½ oz. per 2 gallons of water (150 ppm active quat) to precleaned hard surfaces, thoroughly wetting surfaces with a sponge, cloth, coarse sprayer or by immersion. Treated surfaces must remain wet for at least 60 seconds followed by adequate draining and air drying. Do not rinse. Follow additional instructions on label.

Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Technical Specifications

Appearance	Colorless Liquid
Odor	Characteristic
Alkalinity (as NaOH)	None
pH (1% solution)	<2.0.
Foaming	High
Flash Point	>200°F
Bulk Density	approx. 9.80 lbs./gal.
Solubility in Water	100%
Rinsing	Very Good
DOT Classification	Corrosive
Phosphorous as P ₂ O ₅	<20.%
Hard Water Performance	Very Good
Freeze/Thaw Stability	Complete

Package Size

55 gal. drum

Product Code

#33955
