# UltraSolve

## All Purpose Laundry Stain Remover

A high strength solvent-based emulsifier for stain and spot removal in institutional and industrial laundries. Effectively treats a wide variety of stains on sheets, towels, blankets, table linens, uniforms, rags, coveralls, and more. Penetrates and dissolves soils during the wash process. Fortified with powerful solvents and surfactants for rapid penetration and removal of stubborn soils. Rinses completely in the washer, leaving clean fabric behind. An essential product for maintaining clean laundry without damaging fabric. Non-hazardous and non-corrosive.

### Directions for Use

Prior to use, test this product in an inconspicuous area to assure compatibility with fabric to be treated. Do not use this product near heat or open flame.

**Prespotting:** Apply at full strength onto stain. Allow 5-10 minutes contact time to penetrate and dissolve soil. Blot with a clean cloth then wash as usual.

**Presoaking:** For heavily soiled or stained fabric, this product may be used at full strength or diluted 2:1 with warm water. Place stained laundry into soaking vessel, then pour **UltraSolve** into vessel, immersing fabric completely. Allow to soak for at 10-30 minutes prior to washing, then launder as usual.

**For Laundry Machine Applications:** For removal of laundry stains in top loading machines (such as greasy kitchen towels), use 3-6 oz. of this product for each 10 lbs. of laundry. Adjust quantity according to amount and severity of staining. For automatic injection into larger institutional laundry machines, consult your Service Representative for usage quantity and procedures.

### Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

### Technical Specifications

Appearance	Colorless Liquid
Odor	Characteristic
Alkalinity (as NaOH)	None
pH (1% solution)	<9.0
Foaming	Very Low
Flash Point	>200°F
Bulk Density	approx 8.20 lbs./gal.
Solubility in Water	100%
Rinsing	Good
Chlorine Content	None
Phosphorous as P <sub>2</sub> O <sub>5</sub>	None
Hard Water Performance	NA
Freeze/Thaw Stability	Complete
