

## Product Bulletin

# UltraSour

## *Rust Removing Laundry Sour*

High strength souring agent for use in industrial and institutional laundries. When used during the final rinse, this product effectively neutralizes alkali, hard water and chlorine residues which can cause fabric discoloration. Eliminates yellowing from iron deposition in hard water areas and improves overall fabric brightness. Restores the natural pH of cotton, synthetics and most fabrics. An essential component of a quality laundry chemical system.

### Directions for Use

The amount of this product to be used will vary according to the load size, machine size, fabric type, water conditions and other factors. Your Service Representative will analyze these variables and set up dispensing equipment and usage concentration accordingly. In general, use 2 to 4 ounces of this product per 50 lbs. of load size where normal soil levels and water conditions are present.

**Caution:** Do not pour this product directly onto fabric as spotting will result. For use in commercial wash machines only.

### Safety Reminder

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

### Technical Specifications

Appearance	Clear Liquid
Odor	Characteristic
Alkalinity (as NaOH)	None
pH (1% solution)	<5.0
Foaming	Low
Flash Point	>200°F
Bulk Density	approx. 9.00 lbs./gal.
Solubility in Water	100%
Rinsing	Complete
Chlorine Content	None
Phosphorous as P <sub>2</sub> O <sub>5</sub>	None
Hard Water Performance	Very Good
Freeze/Thaw Stability	Complete

### Package Size      Product Code

5 gal. pail	#28005
15 gal. drum	#28015
55 gal. drum	#28055
