# WAREWASHING AND KITCHEN SANITATION

## PRESOAKS AND STAIN REMOVERS

- PowerSoak** Premium liquid presoak for silverware, soup bowls and other items. Helps remove tough soils faster and easier. An excellent detarnisher for silver plate. Green color. Mint fragrance.  
**#11041/4x1 gal. case**
- SilverStar** Economical all purpose presoaking agent for silverware and other items stained with stubborn food soils. Makes machine dishwashing much more effective and reduces rewashes. Blue color.  
**#11241/4x1 gal. case #11205/5 gal. pail**
- Solid SilverStar** Dual enzyme activated solid presoak. Produces sparkling clean dishes and silverware in one pass. Also excellent for detarnishing silverplated items. Safe to use--automatically dispensed. Green color. Mint fragrance.  
**#11526/2x6 lb. case**
- QuickSilver** Powdered presoak formulated for rapid penetration and removal of stubborn, baked-on food soils. Assures better results from manual or machine warewashing. Blue color.  
**#11728/2x8 lb. case** (scoop included) **#11735/35 lb. pail**  
**#11748/4x8 lb. case** (screened caps) **#11750/50 lb. drum**
- ChlorBright** Special bleaching compound designed for destaining china and plastic ware. Particularly effective against coffee, tea, cola and fruit juice stains. Also excellent for presoaking stainless steel tableware before machine washing. Safe on all plastic and china glaze.  
**#11928/2x8 lb. case** (scoop included)
- OxyBright** An advanced organic product which removes stains and odors safely from a variety of surfaces. Ideal for plastic and china destaining, laundry brightening, carpet and hard surface cleaning. Fortified with d'limonene for enhanced soil removal. Citrus fragrance.  
**#11828/2x8 lb. case** (scoop included)

## DISH MACHINE DETERGENTS

- LowTemp Detergent** Excellent liquid dish machine detergent designed for use in low temperature machines. Excellent cleaning power, water conditioning, stain and foam control. Very low use-cost. Red color.  
**#13141/4x1 gal. case #13105/5 gal. pail**
- PowerTemp** A premium quality liquid designed for top performance in all commercial dishwashing machines. Outstanding results in hard water areas. Excellent grease removal and rinsing characteristics. Superior results over ordinary detergents. Brown color.  
**#13241/4x1 gal. case #13205/5 gal. pail**
- Blast** High performance detergent for high temp machines. The very best for cutting grease, conditioning water and destaining. Heavily fortified with chlorine for enhanced soil removal. Ideal for challenging accounts. Light yellow color. USDA A1.  
**#13341/4x1 gal. case #13305/5 gal. pail**
- Medalist** Non-caustic liquid dish machine detergent for safe use on aluminum, tin, pewter, galvanized and other soft metals. Great for bake pan machines. Effective in all water conditions.  
**#13841/4x1 gal. case #13805/5 gal. pail**
- Command** Delivers superb cleaning power, excellent stain control, water conditioning and rinsing for the finest possible results on glassware, silverware, etc. Designed for hard water applications. Encapsulated for automatic dispensing.  
**#13548/4x8 lb. case** (screened caps)
- Cyclone** High active machine dish detergent for high soil levels in medium soft water conditions. Designed for the most challenging applications. Very long-lasting. Fortified with chlorine and water conditioning polymers. Encapsulated for automatic dispensing.  
**#13648/4x8 lb. case** (screened caps)
- Conquer** Excellent all purpose powder machine detergent for soft water applications. Delivers terrific grease removal and destaining performance at an economical price. Encapsulated for automatic dispensing.  
**#13048/4x8 lb. case** (screened caps)
- MetalSafe** Designed for use where chemical corrosion of aluminum cookware or other soft metals must be avoided. Contains special alkalis chosen for their safe performance on soft metals. Effective in hard water and high soil loads. Encapsulated for automatic dispensing.  
**#13748/4x8 lb. case** (screened caps)
- Platinum** All purpose solid machine detergent for high or low temperature applications. Fortified with alkaline builders, water conditioning agents, and emulsifiers for outstanding results in all water and soil conditions. Safe to use. Great for fixed cost accounts.  
**#13449/4x9 lb. case**

## 10000 SERIES

# WAREWASHING AND KITCHEN SANITATION

## DISH MACHINE DETERGENTS

- Paragon** Premium quality solid machine detergent for demanding applications. Ideal for hard water, heavy soil applications where good warewashing results require a top quality product. Delivers excellent results at low titrations--excellent for fixed cost accounts.  
**#14349/4x9 lb. case**
- Solid MetalStar** High performance solid dishmachine detergent for safe, non-corrosive warewashing of aluminum cookware and bakeware in high or low temp applications. Convenient solid form.  
**#14449/4x9 lb. case**
- Chlorinated Machine Dish** Non-corrosive multi-purpose powdered machine dish detergent for all types of washable cookware, flatware, glassware, etc. Gives impressive results in all applications. Chlorine fortified for enhanced destaining. Low foaming and free rinsing. USDA A1.  
**#13935/35 lb. pail      #13950/50 lb. drum      #13901/100 lb. drum      #13903/300 lb. drum**
- Hardchlor** All purpose machine dishwashing powder for bulk feed applications. Delivers great overall performance in most water conditions and soil loads. Contains special alkalis for grease removal and chelating agents for water softening. Chlorine fortified. USDA A2.  
**#14025/25x2 lb. case      #14050/50 lb. drum      #14001/100 lb. drum      #14003/300 lb. drum**

## RINSE ADDITIVES

- HSR** Intended for use in areas with high levels of dissolved solids in the water. Assures sparkling clean results and fast drying where other rinse additives fail. Red color.  
**#15141/4x1 gal. case      #15105/5 gal. pail**
- Glisten** Premium heavy duty rinse additive for the very finest results in high temp machines. Outstanding rinsing and drying even in hard water areas. Excellent foam control and use-cost. Our top performing rinse aid. Blue-green color.  
**#15241/4x1 gal. case      #15205/5 gal. pail**
- AllTemp Rinse** All purpose rinse for excellent, spot free results in low or high temperature dish machines. Very good water conditioning and foam control in most water temperatures. Dark blue color.  
**#15341/4x1 gal. case      #15305/5 gal. pail**
- LowTemp Rinse** Designed for low temperature/chemical sanitizing dish machines. Fast-drying, beautiful results, excellent foam control at temperatures above 100°F. Dark blue color.  
**#15541/4x1 gal. case      #15505/5 gal. pail**
- Raindrops** Acidic rinse for use in hard water areas. Ideal where rinse water is not softened. Effectively counteracts calcium, iron and other hardness ions to assure sparkling clean results. Also helps reduce scale levels in dish machine. Blue color.  
**#15641/4x1 gal. case      #15605/5 gal. pail**
- Solid DryStar** A superb new solid rinse additive for exceptional performance in low or high temperature dish machines. Top performance in all water conditions. Excellent foam control. Unbeatable use-economy. Fast, spot-free rinsing and drying. Dark blue color.  
**#15925/2x5 lb. case**

## CHLORINE ADDITIVES

- SpectraChlor** A versatile chlorine concentrate for use in warewashing, laundry, and hard surface cleaning. Contains 5.25% Sodium Hypochlorite. Ideal for low temp dishmachines, laundry whitening, and hard surface soil removal and deodorizing. Light yellow color.  
**#14941/4x1 gal. case      #14905/5 gal. pail      #14915/15 gal. drum      #14930/30 gal. drum**
- MultiChlor** Multi purpose high strength industrial Sodium Hypochlorite (minimum 10%). Ideal for use in low temperature dish machines. Also an excellent destainer for institutional and commercial laundries. Very low use cost. Light yellow color.  
**#14541/4x1 gal. case      #14505/5 gal. pail      #14515/15 gal. drum      #14530/30 gal. drum**

## 10000 SERIES

# WAREWASHING AND KITCHEN SANITATION

## LIME SCALE SOLVENTS

- Lime Off** Provides rapid penetration and dissolving action on lime scale, rust, oxidation, hard water scum and mineral deposits. Ideal for periodic deliming of dishmachines or for scale removal on foodservice equipment and utensils. Light green color.  
**#16041/4x1 gal. case**
- Delimer Plus** A synergistic blend of acids which have been specially formulated to provide rapid attack on lime scale. Works better than standard delimers containing only one type of acid. Delivers fabulous delimiting performance. Gets the job done fast with less corrosion. Green color.  
**#16141/4x1 gal. case**
- Lime-X** Very aggressive lime scale solvent made with hydrochloric acid and a special surfactant blend. Attacks lime scale, calcium and mineral deposits immediately. A great choice for immediate results. Contains Hydrochloric Acid. Purple color.  
**#16241/4x1 gal. case**
- Delimer** Economical Hydrochloric Acid-based delimer and descaler for foodservice and other applications. Very effective on all types of mineral deposits, including calcium, lime, rust, etc. Brown color.  
**#16441/4x1 gal. case**

## MANUAL DISH DETERGENTS

- Delight** Super-premium pot and pan detergent for the ultimate grease cutting, foam durability and mildness to the hands. Competes with any national brand product at a much lower cost. High activity assures maximum use-economy. Blue color. Fresh floral fragrance.  
**#14841/4x1 gal. case #14805/5 gal. pail**
- Amber** A heavy duty lemon dish soap for the toughest greasy pots and pans, as well as dishes, glassware, silverware, and all other cookware and utensils. Rich and lustrous. Produces an abundance of gentle lather. Deep golden color. Lemon fragrance.  
**#12041/4x1 gal. case #12005/5 gal. pail**
- Green Supreme** Similar to Amber, but formulated with extra skin conditioners for enhanced mildness. A very appealing product. Performs extremely well in all conditions. Green color. Lemon fragrance.  
**#12141/4x1 gal. case #12105/5 gal. pail**
- Blue Creme** Generates rich, tight foam that lasts and lasts. Great for light or heavy soil loads. Instantly penetrates and lifts away oils, greases and other food soils without being harsh on the hands. Lustrous clear blue color. Bouquet fragrance.  
**#12241/4x1 gal. case #12205/5 gal. pail**
- Swish** High viscosity and high levels of grease emulsifiers make Swish an outstanding product with high customer appeal. Lifts food soils away from dishes while being mild to the hands. Produces long-lasting foam. Pink color. Cherry-almond fragrance. USDA A1.  
**#14241/4x1 gal. case #14205/5 gal. pail**
- Dish Brite** Our top selling hand dish detergent. Outstanding customer appeal. Formulated to keep costs at a minimum while offering the maximum in performance. An unbeatable product at the price. Pink color. Cherry-almond fragrance.  
**#12341/4x1 gal. case #12305/5 gal. pail**
- Solid PanMaster** Premium high active solid pot and pan detergent. Great cleaning power, yet mild to the hands. Excellent use-economy. Superior to other solid pot and pan products. Cuts grease fast, yet rinses easily. Automatically dispensed. Pink color. Lemon fragrance.  
**#12425/2x5 lb. case**
- Solid PanStar** More economical solid pot and pan formula for manual dishwashing. Produces rich suds that stand up to difficult cleaning tasks. High detergency level assures sparkling results. Pink color. Lemon fragrance.  
**#14626/2x6 lb. case**
- Pride** Top quality powdered hand dish detergent. Maximum foam production, stability, mildness and grease cutting performance. Cleans very well in all institutional settings and all conditions. Blue color. Lemon fragrance.  
**#12550/50 lb. drum #12501/100 lb. drum**

## 10000 SERIES

# WAREWASHING AND KITCHEN SANITATION

### MANUAL DISH DETERGENTS

- Big Blue** Mid-grade powdered hand dish detergent contains foaming and water softening agents for thick suds and effective cleaning power. Low usage rate. Blue color. USDA A1.  
#12650/50 lb. drum #12601/100 lb. drum
- Quickie** Offers excellent grease cutting performance at a very competitive price. Intended for budget-conscious customers who demand great cleaning results at a cost savings. Blue color.  
#14150/50 lb. drum #14101/100 lb. drum
- Active Beads** Spray-dried detergent with tremendous foaming and grease-cutting properties. Very light density for lower usage volume and cost. Produces more than double the number of scoops per lb. than standard detergents. An excellent all purpose detergent.  
#12725/25 lb. box #12750/50 lb. box
- HD Beads** An alternative light density powdered detergent produced by a special blending process. Unmatched sudsing and grease cutting. Offers considerable cost savings. White color. A top seller.  
#12825/25 lb. box #12850/50 lb. box
- BakePan Cleaner** More alkaline powdered detergent for manually scrubbing aluminum bake pans and cookware. Also an effective presoak. Safe on all metals. Excellent for use in power sinks. USDA A1.  
#12950/50 lb. drum #12901/100 lb. drum

### OVEN, GRILL & FRYER CLEANERS

- Churn** Ultra-strength alkaline degreaser for the most challenging ovens, grills, hoods, stoves, etc. Designed for the toughest applications. Very high strength--may be used in smoke houses. Brown color. USDA A8.  
#17041/4x1 gal. case #17005/5 gal. pail #17030/30 gal. drum #17055/55 gal. drum
