

Next Generation Laundry System

EXCLUSIVELY FOR ON-PREMISE LAUNDRIES

Next Generation Laundry System

FOR ON-PREMISE LAUNDRIES

Advanced, optimized chemistry delivers superior results in all soil and water conditions. Formulated for powerful stain removal and significant reduction in reclaims and rewashes. Saves time, labor and resources.

Results that please with every touch

LESS IS **MORE**

Higher concentrations + smaller containers
= LESS weight, LESS space, **MORE** performance

	1½ gal. bottle	5 gal. pail
Weight	up to 19 lbs	up to 63 lbs
Space	.264 cu. ft.	1.31 cu. ft.

FABRICHEM™ Reduces ...

Weight by **more than 300%**

Space consumption by **nearly 500%**

1½ gal. bottle of FABRICHEM™ SUDS

VS.

5 gal. pail of conventional Suds

The **Most Concentrated** Laundry Chemistry in the Industry

High active formulas contain little or no water.

For many products, a 1½ gal. bottle delivers as many clean loads as a 5 gallon pail.

Very lean dilution rates assure the lowest use cost per load.

Chemical consumption reduced 60–75% compared to conventional pail formulas.

LESS chemical = **MORE** clean loads

Patented Closed Loop Dispensing

Easy replacement of empty containers by most employees

Sealed system reduces the possibility of chemical contact

No dripping stand pipes or messy changeovers

No chemicals on the floor, on containers, on hands or on shoes

Compatible with dispensers from most manufacturers

Improves Safety | Assures Consistent Chemical Delivery and Results

Super-concentrated, best in class chemistry for unsurpassed performance in healthcare, hospitality, health clubs, correctional facilities, and other on-premise laundries.

BREAK | Alkaline pH Booster

Premium heavy duty alkaline pH booster. Dissolves grease and soils in demanding on-premise laundries. Heavily fortified with concentrated alkalis that penetrate and dissolve tough soils and stains. Boosts the cleaning power of laundry detergent. Safe on cotton and synthetics.
