

# Safety Data Sheet

# **SECTION 1: Identification**

1.1	Product identifier	
	Product name	PowerTemp Heavy Duty Dish Machine Detergent
	Product number	132
	Brand	Crown Chemical, Inc.

- **1.2 Other means of identification** PowerTemp Heavy Duty Dish Machine Detergent
- **1.3 Recommended use of the chemical and restrictions on use** Machine dishwashing

1.4	Supplier's details		
	Name	Crown Chemical, Inc.	
	Address	4701 W. 136th. St.	
		Crestwood, Illinois 60418	
		U.S.A.	
	Telephone	708-371-6990	
	Fax	708-371-6992	
	email	info@crown-chem.com	

#### **1.5** Emergency phone number(s)

800-535-5053

# **SECTION 2: Hazard identification**

#### General hazard statement

Causes serious eye damage; Causes severe skin burns and eye damage; Harmful if swallowed

#### 2.1 Classification of the substance or mixture

#### GHS classification in accordance with: (US) OSHA (29 CFR 1910.1200)

- Eye damage/irritation, Cat. 1
- Skin corrosion/irritation, Cat. 1A
- Acute toxicity, oral, Cat. 4

### 2.2 GHS label elements, including precautionary statements Pictogram

Signal word

#### Hazard statement(s)

H302 H314 H318 **Precautionary statement(s)** P260 P264 P270 P280

#### Harmful if swallowed Causes severe skin burns and eye damage Causes serious eye damage

Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands & skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.

P301+P312 P301+P330+P331	IF SWALLOWED: Call a POISON CENTER /doctor if you feel unwell. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor for treatment advice.
P330	Rinse mouth.
P363	Wash contaminated clothing before reuse.
P405	Store locked up.
P501	Dispose of contents and container in accordance with all local, state, national and international regulations.

# 2.3 Other hazards which do not result in classification None identified

# **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

Corrosive Mixture Hazardous components

#### 1. Sodium hydroxide

Concentration	10 - 30 % (By Weight)
EC no.	215-185-5
CAS no.	1310-73-2
Index no.	011-002-00-6

- Skin corrosion/irritation, Cat. 1A

#### H314

Causes severe skin burns and eye damage

# 2. Potassium hydroxide

Concentration EC no. CAS no. Index no. 10 - 30 % (By Weight) 215-181-3 1310-58-3 019-002-00-8

- Skin corrosion/irritation, Cat. 1A

- Acute toxicity, oral, Cat. 4

H302 H314 Harmful if swallowed Causes severe skin burns and eye damage

#### Trade secret statement (OSHA 1910.1200(i))

The specific chemical identities and/or actual concentrations for one or more components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i).

SECTION 4: First-aid measures			
4.1	Description of necessary first-aid measures		
	General advice	Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.	
	If inhaled	Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell.	
	In case of skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower for at least 15 minutes. Call a poison center or doctor if irritation develops or persists. Wash contaminated clothing before reuse.	

In case of eye contact	Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor.
If swallowed	Rinse mouth. Do NOT induce vomiting. Immediately call a poison center or doctor. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Never give anything by mouth to an unconscious person.
Personal protective equipment	for first-aid responders
	Treat exposure symptomatically. In all cases of eye contact, ingestion, or

inhalation, contact a doctor or Poison Control Center immediately.

- **4.2** Most important symptoms/effects, acute and delayed The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11
- **4.3** Indication of immediate medical attention and special treatment needed, if necessary Treat exposure symptomatically. In all cases of eye contact, ingestion, or inhalation, contact a doctor or Poison Control Center immediately.

# **SECTION 5: Fire-fighting measures**

#### **5.1 Suitable extinguishing media** Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

5.2 Specific hazards arising from the chemical None known

#### 5.3 Special protective actions for fire-fighters

Avoid any skin contact. Effects of contact or inhalation may be delayed. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may be corrosive and/or toxic and cause pollution. Wear positive pressure self-contained breathing apparatus (SCBA). Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.

#### **Further information**

Use water spray to cool unopened containers.

# **SECTION 6: Accidental release measures**

6.1 Personal precautions, protective equipment and emergency procedures

Initiate spill containment procedures immediately using containment or absorbtion methods. Keep people away from area. Put on appropriate protective equipment (see Section 8).

#### 6.2 Environmental precautions

Do not let product enter drains.

#### 6.3 Methods and materials for containment and cleaning up

Do not allow spilled material to enter sewers, waterways or soil. Neutralize with water. Mop, sweep or otherwise collect spilled material and hold for disposal. Consult local government authorities for allowable disposal methods. After removal, rinse area completely with water to remove residue.

#### **Reference to other sections**

For disposal see section 13.

# **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Do not swallow. Do not breathe mist, vapors, or spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. See Section 8 for information on Personal Protective Equipment.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store locked up. Store away from incompatible materials. See Section 10 for information on Incompatible Materials. Keep out of the reach of children.

#### Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

1. Sodium hydroxide (CAS: 1310-73-2)

PEL (Inhalation): 2 mg/m3; USA (OSHA) OSHA Annotated Table Z-1, www.osha.gov

PEL (Inhalation): (C) 2 mg/m3; USA (Cal/OSHA) OSHA Annotated Table Z-1, www.osha.gov

REL (Inhalation): (C) 2 mg/m3; USA (NIOSH) OSHA Annotated Table Z-1, www.osha.gov

TLV® (Inhalation): (C) 2 mg/m3; USA (ACGIH) OSHA Annotated Table Z-1, www.osha.gov

2. Potassium hydroxide (CAS: 1310-58-3 EC: 215-181-3)

PEL-C (Inhalation): 2 mg/m3; USA (NIOSH)

PEL-C (Inhalation): 2 mg/m3; USA (Cal/OSHA)

#### 8.2 Appropriate engineering controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

#### 8.3 Individual protection measures, such as personal protective equipment (PPE)

#### **Pictograms**

#### **Eye/face protection**

Tightly fitting safety goggles. If splash hazard, wear faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

#### **Skin protection**

Wear protective rubber gloves, a long sleeve shirt and, if necessary, a rubber apron to prevent contact.

#### **Body protection**

Wear protective clothing. Clothing with full length sleeves and pants should be worn. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

#### **Respiratory protection**

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

# Thermal hazards

No data available.

**Environmental exposure controls** 

Do not let product enter drains.

# **SECTION 9: Physical and chemical properties**

#### Information on basic physical and chemical properties

nienien en saere prijerear and enemear prepertie	<b>~</b>
Appearance/form (physical state, color, etc.)	Brown Liquid
Odor	Characteristic
Odor threshold	No data available.
рН	>11.5 (1% Solution)
Melting point/freezing point	>45°F
Initial boiling point and boiling range	No data available.
Flash point	Non-Combustible
Evaporation rate	<1.0
Flammability (solid, gas)	No data available.
Upper/lower flammability limits	No data available.
Upper/lower explosive limits	No data available.
Vapor pressure	No data available.
Vapor density	>1.0
Relative density	>1.0
Solubility(ies)	100% in 120°F Water
Partition coefficient: n-octanol/water	No data available.
Auto-ignition temperature	No data available.
Decomposition temperature	No data available.
Viscosity	>1.0
Explosive properties	No data available.
Oxidizing properties	No data available.

# **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

Product may react when diluted with water to produce heat up to boiling temperature. Product is highly reactive with acids. Reactions may produce hazardous conditions, including violent splattering of corrosive materials. NEVER mix this product with other chemicals. Mix this product ONLY with water.

#### 10.2 Chemical stability

Product is stable under normal storage and usage conditions.

# 10.3 Possibility of hazardous reactions

No data available.

#### 10.4 Conditions to avoid

Heat, flames and sparks. Incompatible products. Keep away from open flames, hot surfaces and sources of ignition.

# **10.5** Incompatible materials Acid, metals.

#### **10.6 Hazardous decomposition products**

None are expected under normal storage and usage conditions.

# **SECTION 11: Toxicological information**

#### Information on toxicological effects

#### **Acute toxicity**

Likely Routes of Exposure: Eye contact. Skin contact. Inhalation. Ingestion.

#### Skin corrosion/irritation Irritation, pain, redness, blistering.

# Serious eye damage/irritation

Irritation, pain, redness, watering.

#### **Respiratory or skin sensitization**

Coughing, choking, respiratory tract irritation, breathing difficulty.

#### Germ cell mutagenicity

No data available.

#### Carcinogenicity

This product is or contains a component that is not classifiable as to its carcinogenicity based on its IARC, ACGIH,NTP, or EPA classification

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### **Reproductive toxicity**

No data available.

**Summary of evaluation of the CMR properties** No known significant effects or critical hazards.

**STOT-single exposure** No data available.

**STOT-repeated exposure** No data available.

Aspiration hazard No data available.

Additional information No data available.

### **SECTION 12: Ecological information**

#### Toxicity

No specific data available for this mixture. Sodium Hydroxide and Potassium Hydroxide are known to be toxic to aquatic life.

Persistence and degradability No data available on product

**Bioaccumulative potential** No data available on product

Mobility in soil No data available.

#### **Results of PBT and vPvB assessment**

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

Other adverse effects No known significant effects or critical hazards.

# **SECTION 13: Disposal considerations**

# **Disposal of the product**

Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

#### **Disposal of contaminated packaging**

Dispose of as unused product.

#### Other disposal recommendations

Avoid disposal of this product. Use complete contents according to directions. Do not release contents into a municipal sewer except through normal dilution and usage. Do not release contents onto the ground or into any body of water. Dispose of empty container by offering for recycling if available, or into a landfill. Follow all applicable state and local regulations.

# **SECTION 14: Transport information**

#### DOT (US)

UN Number: NA 1760 Class: 8

Packing Group: II

Proper Shipping Name: NA 1760, Compounds, Cleaning Liquid, 8, PG II (Contains Sodium Hydroxide) Reportable quantity (RQ): Sodium Hydroxide, Potassium Hydroxide

**Note:** Certain package sizes of this product may qualify for exceptions to DOT's packaging, labeling and other requirements, and thus may have different DOT shipping names. For bulk shipments, see the shipping documents.

# **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations specific for the product in question

#### SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

#### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### SARA 311/312 Hazards

Acute Health Hazard

#### Massachusetts Right To Know Components

Sodium hydroxide, CAS number: 1310-73-2 Potassium hydroxide, CAS-No. 1310-58-3

#### **New Jersey Right To Know Components**

SODIUM HYDROXIDE,CAS number: 1310-73-2 Potassium hydroxide, CAS-No. 1310-58-3

## Pennsylvania Right To Know Components

Sodium hydroxide, CAS number: 1310-73-2 Potassium hydroxide, CAS-No. 1310-58-3

#### **California Prop. 65 Components**

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

# **SECTION 16: Other information**

The information herein is believed to be correct, but is given without warranty or guaranty of any kind, express or implied. The hazards provided in this Safety Data Sheet apply to the product in its concentrated form, and may differ significantly after dilution.

#### 16.1 Further information/disclaimer

DISCLAIMER: The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigation to determine the suitability of information for their particular purposes. In no event shall Crown Chemical, Inc. be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, whatsoever arising, even if Crown Chemical, Inc. has been advised of the possibility of such damages.
