

BACTRAC™

Quat Fortified Slip Reducing Floor Treatment for Food Plants

A powdered floor treatment for use in meat and poultry plants, seafood plants, food plants and other facilities where floors can become slippery due to the buildup of fats, oils, greases, etc. Granulated compound helps improve traction and reduce slip and fall incidents. Fortified with quaternary ammonium chlorides for improved plant sanitation and odor reduction. Safe for use on concrete, epoxy floors and tile. Slow dissolving, non-corrosive and economical.

Directions for Use

Use in all dry process areas of food processing facilities. Sprinkle powdered evenly across area to be treated. For large areas, use a drop or broadcast spreader and apply at a rate of 3-5 lbs, per 1,000 square feet of floor space. Reapply as needed to maintain complete and even coverage.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	White Powder
Odor	Characteristic
pH (1% solution, 22°C)	<8.0
Foaming	Low
Flash Point	N/A
Bulk Density (lbs/gal)	>10.00 ±0.1
Stability Range	NA
Free Alkalinity (as Na ₂ O)	None
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None
Quaternary Content	>5,000 ppm

Product Number

95001
95003

Packaging

100 lb. drum
300 lb. drum
