### Premium Thickened Water-Based High-Gloss Tire Dressing for In-Line and Manual Application

A premium quality, thickened water-based silicone tire dressing ideal for online application in automatic car washes. Also excellent for manual application onto tires, dashboards and other interior surfaces. Imparts a glossy, long-lasting shine that resists water. Thickened formula provides excellent coating of tire surfaces and reduces “sling” onto auto exterior surfaces. Suitable for use through most online application systems.

#### Directions for Use

**Automatic Car Washes:** Clean tire first using an alkaline tire cleaner. Rinse completely. Apply this product at the end of the tunnel just before drying. Follow manufacturers recommended settings for application equipment.

**Manual Use:** Clean tire completely using a high-quality tire cleaner. Assure that tire is completely dry before applying this product. Apply using a tire dressing applicator, lint-free cloth or dense sponge to outer wall of tire making sure to cover completely. Avoid contact with car. Wipe in a circular motion to spread out product and cover completely. Thickened formula will coat evenly and last longer, but may require additional effort to fill all tire crevices. For interior surfaces, apply using a lint-free cloth to dashboards, door interiors and other surfaces. Allow to dry. Not recommended for spray application.

#### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

#### Technical Specifications

Appearance	White Liquid
Odor	Characteristic
pH (1% solution, 22°C)	<8.0
Foaming	None
Flash Point	>200°F
Bulk Density (lbs/gal, 22°C)	8.36±0.1
Stability Range	50-100°F
Free Alkalinity (as Na <sub>2</sub> O)	None
Solubility (in H <sub>2</sub> O, 22°C)	100%
Phosphate Content	None

#### Product Number

87505  
87515  
87530  
87555

#### Packaging

5 gal. pail  
15 gal. drum  
30 gal. drum  
55 gal. drum
