

CHLORINATED MACHINE DISH

Powdered Dishwashing Detergent for Commercial and Under Counter Machines

A premium quality detergent for use in high or low temperature dishmachines. Excellent for restaurant or residential use. Fortified with alkaline builders, soil emulsifiers, water conditioning and anti-redeposition agents for superb results. Contains chlorine for improved cleaning performance and destaining of coffee cups. Suitable for use in hard water areas and high soil loads. Safe for use on aluminum cookware and other surfaces made of non-ferrous metal.

Directions for Use

For most dishwashing, follow dishmachine manufacturer's directions, or use about 1/2 to 1 cup per washload depending on the machine's size. For best results, prescrape and presoak dishes to remove excess and baked-on food soils. Make sure to use hot water in the machine, and assure that spray nozzles are clear and working properly. Additional detergent may be necessary for heavily soiled dishes or hard water areas. **For machine dishwashing only; not for manual dishwashing.**

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	White Powder
Odor	Chlorine
pH (1% solution, 22°C)	>11.5
Foaming	Low
Flash Point	N/A
Bulk Density (lbs/gal)	8.00 ±0.1
Stability Range	N/A
Free Alkalinity (as Na ₂ O)	High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	<7.0%
Chlorine Content	<1.0%
USDA Rating	A1

Product Number

13925

*Scoop included in each pail

Packaging

25 lb. pail*
