## Foaming Acid Bath & Shower Cleaner

### Foaming Bathroom Multi-Surface Acid Detergent

A versatile, powerful detergent which provides excellent cleaning performance on hard surfaces in restrooms, shower and bathing areas, swimming pool and whirlpool areas, and much more. Safe for use on chrome, brass and other polished metal fixtures. Will not fume or corrode metal like hydrochloric acid-based products. Produces abundant foam which clings to vertical surfaces for increased contact time and improved cleaning performance on shower walls, backsplashes, urinals and more. Immediately attacks and dissolves hard water stains, lime scale, rust, oxidation, uric acid salts, mineral deposits, soap scum and other difficult soils. Very effective on toilet bowls, urinals, bath tubs, sinks, tile walls and floors, plumbing fixtures, countertops, backsplashes, drinking fountains, stainless steel surfaces, swimming pools walls and decks, ceramic and quarry tile, stone, porcelain and many other areas. Provides deep cleaning and brightening of tile surfaces and grout lines. Non-fuming. Fresh cherry fragrance.

#### Directions for Use

**Spray Cleaning:** Dilute this product at a concentration of 2-4 ounces per gallon of warm water (64:1 - 32:1) into a properly labeled spray bottle. Spray solution onto surface to be cleaned. Avoid breathing mist or vapors. Wipe with a soft cloth or sponge, then allow several minutes contact time to penetrate soils. Rinse with clean water. For shower areas or other surfaces with heavy buildup of scale and soap scum (including glass surrounds), dilute at a concentration of 8-32 ounces per gallon of warm water (16:1 - 4:1). Apply solution liberally with a hand-held or garden-type sprayer. Scrub with a nylon brush, allow 3-5 minutes contact time, then rinse well with clean water.

**Mop & Bucket Cleaning:** Sweep floor areas to be cleaned. Dilute at 2-4 ounces per gallon of warm water (64:1 - 32:1) into mop bucket. Apply solution with a clean mop, then scrub with a deck brush, scrub brush or mop. Allow solution several minutes to penetrate and dissolve soils. Rinse away solution with clean water, using a mop, sponge or rag to absorb excess liquid. Allow to air dry. For badly soiled tile or grout lines, apply product at full strength or diluted up to 4:1 with warm water. Agitate with a mop, scrub brush or deck brush, allow 3-5 minutes for detergent to dissolve soils, then rinse completely with clean water. Repeat as necessary.

#### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

- ❖ **Cleans Restroom, Shower, Bathing and Swimming Areas**
- ❖ **High Foaming Clings to Vertical Surfaces for Better Results**
- ❖ **Safe on Most Chrome, Brass and Polished Metal Fixtures**
- ❖ **Brightens Tile and Grout • Non-Fuming • Fresh Cherry Scent**
