Enzyme Floor Cleaner

Residual Kitchen Floor Grease and Soil Remover

This product incorporates a synergistic enzyme chemistry which assures superior removal of embedded grease and soil while also providing continuous, residual cleaning performance. Contains specialized, proprietary ingredients which penetrate grout lines, cracks, crevices, etc. and provide continuing biodegradation of organic soils. Metabolic action eliminates the embedded grease, dirt and organic matter that is not removed by typical floor cleaners. Also counteracts foul odors caused by accumulated organic matter in drains, mops, grout lines, etc. Helps keeps drains open by digesting grease and oil buildup in drain lines. Non-corrosive, non-toxic and biodegradable.

Directions for Use: Sweep floors and wipe up spills before use. For normal daily cleaning, dilute 1-2 ounces of this product per gallon of warm water into a mop bucket. Apply solution liberally to floor with a clean mop. Allow solution to remain on floor to penetrate soils. To facilitate soil removal, scrub floor with a mop or deck brush, then dry mop or squeegee the floor to absorb excess moisture. Do not rinse the floor--allow to air dry before reuse. Pour excess mop water into drain to help eliminate grease buildup and malodors.

- ***The Latest Technology for Cleaning Greasy Kitchen Floors***
- ***Enzymes Provide Residual Digestion of Organic Soils***
- ***No Rinsing Required - Simply Apply and Allow to Air Dry***
- ***Helps Maintain Clean and Odor-Free Drains***

TECHNICAL SPECIFICATIONS

Appearance	Green Liquid
Odor	Characteristic
pH (full strength)	<9.0
Foaming	High
Enzyme Content	High
Flash Point	None
Bulk Density (lbs/gal)	8.50±0.1
Viscosity (H_2O = 1.0)	>1.0
Stability Range	50 - 100°F
Free Alkalinity (as Na_2O)	None
Solubility (in H_2O)	100%
Phosphate Content (as P)	None

PRODUCT NUMBER

CC1864
CC1821
CC18115
*For closed-loop dispensing systems

PACKAGING

4x64 oz. case*
2x1 gal. case
