

ControlPaks™ PORTION CONTROLLED DETERGENTS

LIQUID LAUNDRY

Ultra-Concentrated Detergent with Enzymes

250 Water-Soluble Pods per Case

A premium quality, controlled sudsing liquid laundry detergent packaged in pre-measured, ultra-concentrated water-soluble pods for easy, safe and convenient use in institutional, light industrial and residential washers. Contains a powerful cleaning system with enzymes, surfactants, builders, and alkalis for optimum results in difficult water conditions and high soil levels. Provides superb removal of stains, soils and odor. Safe on most laundry washable fabrics when used as directed. Pre-measured pods provide consistent dosage and cleaning results while eliminating user contact with chemicals. Fresh and clean fragrance.

Directions for Use: Top Loading or High Efficiency Machines: Use 1 water-soluble pod per standard load (up to 15 lbs.). Increase to 2 pods for very heavy soil levels. Use of excessive detergent may cause poor rinsing and oversudsing. Treat stains before washing as required with stain removers. Presoak heavily soiled materials as needed prior to washing. Follow manufacturer's directions on fabric for the best choice of water temperature and wash cycle. Whenever possible, use hot or warm water for washing to achieve the best results. **Presoaking:** To prepare a presoak solution, dilute 1-2 pods per gallon of warm water. Soak for 30-60 minutes or longer if possible. Wash as usual.

TECHNICAL SPECIFICATIONS

Appearance	Blue Liquid
Odor	Fresh & Clean
pH (1% solution, 72°F)	~9.00
Foaming	Moderate
Flash Point	>200°F
Bulk Density (lbs/gal, 72°F)	8.85±0.1
Stability Range	50 - 100°F
Free Alkalinity (as Na ₂ O)	None
Stain Removal Capacity	Very High
Phosphate Content (as P)	None

PRODUCT NUMBER

CP03/25005

PACKAGING

250 x ½ oz. pods per case
