

DRAINZYME™

Bio-Enzymatic Maintainer for Traps and Drains

An outstanding product for maintaining drain lines and grease traps. Contains a synergistic blend of genetically programmed organisms which create rapid and continuous degradation of food by-products. Effective against oils, greases, fats, starches and other food residues which clog drain lines and traps. Formulated with multiple strains of bacterial microorganisms plus a special blend of enzymes for enhanced performance (over 250 billion per gallon). Safe and natural. Excellent odor control. Substantially reduces maintenance costs by eliminating the need for drain rodding or grease trap pumping. Fresh fragrance.

Directions for Use

Automatic injection: For best results and economy, this product should be automatically injected into the drain lines and grease traps on a programmed basis. Your Service Representative will assist in setting up dispensing equipment and determining the appropriate usage rate.

Manual application: For grease traps, use 8-12 ounces of product daily, depending on the trap size, volume and type of food soil, etc. Pour directly into trap late at night when trap will not be used for at least 6 hours. For slow drain lines, pre-dilute 8 ounces of this product, then pour into drain. Do not use drain for at least 6 hours, then flush with hot water. If drainage is not improved, clean out or rodding may be necessary, especially for blockage from plastics, etc.

Septic Tanks: For initial treatment, add one quart directly into septic tank. For subsequent treatment, add 8 ounces per week by flushing down sink or toilet.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Green Liquid
Odor	Lemon
pH (1% solution, 22°C)	<8.0
Foaming	Moderate
Flash Point	None
Bulk Density (lbs/gal, 22°C)	8.40 ±0.1
Stability Range	50-100°F
Alkalinity (as Na ₂ O)	None
Solubility (in H ₂ O, 22°C)	100%
Enzyme Content/Gallon	>250 billion

Product Number

19041
19005
19055

Packaging

4x1 gal. case
5 gal. pail
55 gal. drum
