## High-Strength Foaming Bug Remover and Prep Detergent for Car Washes and Auto Detail Shops

Heavy duty alkaline prespray for removing stubborn bug residue from auto exteriors and windshields. Designed for low-pressure application in prep areas of tunnel car washes or self-service bays. Softens and loosens bug bodies and other protein residue prior to washing. May be rinsed under high pressure for heavy accumulations. Safe on paint finishes and metal surfaces.

### Directions for Use

Dilute product at 8-64 oz per gallon of warm water depending on amount of bug accumulation. Apply solution at low pressure to front bumper, grill, lights and surrounding areas. Scrub with a soft brush, sponge or cloth. If possible, allow several minutes contact time to improve penetration and removal of bug residue. Rinse with hot, high-pressure water. Repeat as needed for stubborn stains. Do not allow product to dry on auto surfaces, especially glass.

### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

### Technical Specifications

Appearance	Yellow Liquid
Odor	Characteristic
pH (1% solution, 22°C)	>11.5
Foaming	Moderate
Flash Point	N/A
Bulk Density (lbs/gal, 22°C)	9.09±0.1
Stability Range	50-100°F
Free Alkalinity (as Na <sub>2</sub> O)	High
Solubility (in H <sub>2</sub> O, 22°C)	100%
Phosphate Content	None

### Product Number

83241  
83205  
83215  
83230  
83255

### Packaging

4x1 gal. case  
5 gal. pail  
15 gal. drum  
30 gal. drum  
55 gal. drum
