

DRAFT CHOICE™

HIGH SUDS MANUAL

BAR GLASS DETERGENT

For Hand Washing and Stationary Brushes

Superior quality detergent for manually washing glassware in bars, taverns, restaurants and other foodservice applications. An ideal product for use in the first sink of a three sink cleaning system. Formulated with an advanced blend of surfactants and sheeting additives for sparkling clean, streak-free beer glasses, wine glasses, water glasses, etc. Produces a high, stable foam that cuts through stains, scale and soils. Very mild to the hands.

Directions for Use

For manual glass washing operations, dissolve 1-2 ounces per gallon of warm water in the first tank of a three tank glass washing operation. After cleaning, glassware should be rinsed with clean water (second tank), then sanitized with an EPA registered no-rinse sanitizer (third sink). Not recommended for use in automatic glass washers.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com.
