

Technical Data Sheet

LowTemp Detergent

Machine Dish Detergent for Low Temp Dishwashing

A high quality liquid designed for top performance in low or high temperature commercial dishwashing machines. Provides excellent grease removal and rinsing characteristics which will produce superb dishwashing results in one pass, even under difficult operating conditions. Contains a special Polymer Booster, producing superior results over ordinary detergents even at very low concentrations. Delivers excellent use-economy.

Directions for Use

This product is designed to be dispensed with equipment installed and/or approved by your Service Representative. Performs well at concentrations as low as 1 ounce per 8 gallons of water under normal operating conditions. However, problems such as excessive water hardness or mechanical problems may require a slightly higher concentration. Ideal wash temperatures for this product range from 140° to 160°F. Wash temperatures as low as 120°F will produce acceptable results, although slower drying times will occur. **For machine use only - not for hand dishwashing.**

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Red Liquid
Odor	Characteristic
pH (1% solution, 22°C)	>11.5
Foaming	None
Flash Point	None
Bulk Density (lbs/gal, 22°C)	10.30 ±0.1
Stability Range	50-100°F
Free Alkalinity (as Na ₂ O)	Very High
Solubility (in H ₂ O, 22°C)	100 %
Phosphate Content (as P)	None

Product Number

13141
13105

Packaging

4x1 gal. case
5 gal. pail
