

## METALSAFE™

### Premium Performance Encapsulated Metal Safe Machine Dish Detergent

A premium quality metal safe detergent for use in high or low temperature dishmachines. Heavily fortified with aluminum-safe alkaline builders, soil emulsifiers, water conditioning and anti-redeposition agents plus special destaining ingredients for unsurpassed results on glassware, silverware, coffee cups, etc. Ideal for use in hard water accounts. Safe for use on aluminum cookware and other surfaces made of non-ferrous metal.

#### Directions for Use

This product is designed to be dispensed with equipment installed and/or approved by your Service Representative, who will determine the correct concentration based on your operating conditions. Clean dishes result from proper water temperatures, correct procedures, proper chemical injection and mechanical action by the dish machine. Your Service Representative will review these requirements during regular service calls. **Never dispense this product with water exceeding 140°F. For automatic dispensing only. Not for manual dishwashing or presoaking.**

#### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

#### Technical Specifications

Appearance	White Powder
Odor	Characteristic
pH (1% solution, 22°C)	>12.0
Foaming	None
Flash Point	N/A
