Solid Dishmachine Detergent for Low or High Temperature

A high performance solid dishmachine detergent which provides excellent cleaning performance on dishes, pots, pans, glassware and silverware. Suitable for use in high or low temp dishmachines in institutional kitchens, cafeterias, catering and banquet facilities and other foodservice operations. Fortified with detergent builders for great results in accounts with soft or medium hardness water. Delivers complete cleaning in a single pass. Not recommended for use on aluminum, silver plate, tin, pewter, galvanized or other non-ferrous metals. Solid form minimizes contact.

Directions for Use

This product is designed to be dispensed with equipment installed and/or approved by your Service Representative. Remove cap and invert bottle on proper solid bowl dispenser. Consult your Representative for information on equipment setup, usage level and cleaning procedures. For best results, use with hot water. **Not for manual dish washing or presoaking.**
