

POWERCHLOR™

Heavy Duty Foaming Chlorinated Food Plant Detergent

A superb high foaming chlorinated detergent which provides deep cleaning of all hard surfaces in meat and poultry plants, dairies, farms and other food processing facilities. Produces abundant clinging foam which adheres to vertical surfaces, thus increasing contact time and cleaning performance on walls, tanks, equipment, etc. Contains chlorine for improved cleaning and deodorizing performance. Rapidly attacks and emulsifies fats, oils, starches, and other protein-based soils as well as grease and grime. Ideal for use with foam generating equipment, pressure washers, and steam cleaners. May also be used for manual brushing or soak cleaning.

Directions for Use

Test product in an inconspicuous area before use to assure compatibility with surface. For normal cleaning requirements, dilute 4-8 ounces per gallon of hot water. Increase solution strength if required by very heavy soil deposits. Apply solution at low pressure to surface to be cleaned using a foam generator or pressure washer. Allow solution several minutes to remain on surface to penetrate and dissolve soils. Agitate with a brush or sponge to improve soil removal, then rinse completely with clean water. A subsequent application of no-rinse sanitizer may be required by local health authorities.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Yellow Liquid
Odor	Chlorine
pH (1% solution, 22°C)	>11.5
Foaming	High
Flash Point	None
Density (lbs/gal, 22°C)	9.54±0.1
Stability Range	50-100°F
Free Alkalinity (as Na ₂ O)	Very High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None
Chlorine Content	>3.5%

Product Number

93641
93605
93655

Packaging

4x1 gal. case
5 gal. pail
55 gal. drum
