

PREZYME™

Enzymatic Carpet Spot Remover and Traffic Lane Prespray

A professional strength product for removing many types of spots, stains and odors from carpeting, upholstery and fabric. Contains a suspension of live bacteria which have been specifically cultured for digesting grease and other organic waste as well as the odors they cause. Ideal for use as a prespray on heavily soiled traffic lanes, or as a prespotter on stains, pet accidents, etc. Designed to be used prior to extraction or rotary carpet cleaning. Safe for advanced generation carpeting. Pleasant, lingering fragrance. Biodegradable.

Directions for Use

Prior to use, test this product in an inconspicuous area to assure colorfastness of carpet. Remove excess soil or stain. Spray or pour directly onto stain without over-wetting. Allow several minutes dwell time to penetrate stain, then blot clean (avoid rubbing) with a white absorbent cloth or towel. Work from the outside of the stain toward the center to prevent spreading. Repeat if stain reappears after drying. Clean or shampoo carpet as usual. For traffic lanes, apply using a pump-type garden sprayer.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Green Liquid
Odor	Lemon Fresh
pH (1% solution, 22°C)	<8.0
Foaming	Moderate
Flash Point	None
Bulk Density (lbs/gal, 22°C)	8.40 ±0.1
Stability Range	50-100°F
Alkalinity (as Na ₂ O)	None
Solubility (in H ₂ O, 22°C)	100%
Enzyme Content/Gallon	>250 billion

Product Number

51541
51555

Packaging

4x1 gal. case
55 gal. drum
