

# PREMIUM™

## Extra Heavy Duty Foaming Oven, Grill & Fryer Cleaner

Dissolves tough deposits of built-up grease and carbon on fryers, grills, stoves, exhaust fans, hoods, filters and barbecues. Fortified with a powerful blend of solvents, alkalis, and surfactants for unsurpassed penetration and removal of stubborn soils. Non-fuming and non-flammable. Not recommended for use on aluminum, tin, pewter or other non-ferrous or galvanized metals.

### Directions for Use

**Ovens and Grills:** Scrape heavy food deposits from surface to be cleaned. Heat oven or grill to about 130°F--do not heat above 160°F as violent splattering may occur. Use at full strength or diluted 50/50 with warm water. Apply liberally to surface and allow several minutes contact time to penetrate soils. Scrub with a rag, sponge or brush. Use a non-abrasive pad for stubborn soil deposits. Flush surface with vinegar or mild acid solution to neutralize alkalinity, then rinse completely with clean water.

**Deep Fat Fryers:** Drain oil and remove food debris. Fill with water to grease line, then add 10-14 ounces of this product. Bring to a low boil for 15-20 minutes, then allow to cool. Drain fryer, scrub any remaining food deposits, neutralize with vinegar or a mild acid solution, then drain and rinse with water.

### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

### Technical Specifications

Appearance	Brown Liquid
Odor	Characteristic
pH (1% solution, 22°C)	>11.5
Foaming	High
Flash Point	None
Bulk Density (lbs/gal, 22°C)	9.50 ±0.1
Stability Range	60-100°F
Free Alkalinity (as Na <sub>2</sub> O)	Very High
Solubility (in H <sub>2</sub> O, 22°C)	100%
Phosphate Content (as P)	None

### Product Number

17241

### Packaging

4x1 gal. case
