ReadyQuat™

Ready-To-Use Sanitizer for Food Contact and Non-Food Contact Surfaces

Before use, consult product label for directions on preparation of use solutions and cleaning procedures. This product is an EPA registered, ready-to-use sanitizer for use on food and non-food contact surfaces in restaurants, institutional kitchens, and other food service operations. Designed for use on immobile hard surfaces such as table tops, food processing equipment, counter tops, chopping blocks, tanks, picnic tables, appliances, stove tops and food work areas. An ideal product for use in restaurant kitchens and dining rooms. Delivers a 200 ppm active quaternary solution that eliminates 99.999% of the following bacteria with 1 minute contact time: Escherichia coli, Listeria monocytogenes, Salmonella typhi, Shigella dysenteriae, Staphylococcus aureus, Streptococcus pyogenes, Yersinia enterocolitica and more listed organisms.

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Consult the label for this product before use to determine dilution, application and cleaning procedures. The label will also contain detailed efficacy information, i.e., a list of bacteria, fungi and virus(es) against which this product is effective, and the dilution level and contact time required to achieve effective cleaning and sanitizing. Also consult the label for precautionary statements, first aid, environmental hazards, handling, storage and disposal information.

**Sanitization of Food Contact Immobile Hard Nonporous Surfaces:** Remove gross food particles, then thoroughly wash with a good detergent followed by a potable water rinse. Apply this product undiluted to sanitize hard nonporous surfaces with a cloth, mop, sponge, wipe or sprayer. Rub with a brush, sponge, wipe or cloth. Treated surfaces must remain wet for 1 minute. Remove excess solution and allow to air dry. Do not rinse or wipe. For spray applications, spray 6-8 inches from surface.

**Non-Food Contact Sanitizer Use Directions:** A preliminary cleaning is required for heavily soiled areas. Apply this product undiluted to hard surfaces with a brush, cloth, mop, sponge or mechanical spray device so as to thoroughly wet surfaces. For spray applications, spray 6-8 inches from surface. Rub with a brush, cloth or sponge. Treated surfaces must remain wet for 3 minutes. Allow to air dry. Change cloth, sponge or towels frequently to avoid redeposition of soil.

**Safety Reminder**

Consult product label and Safety Data Sheet (SDS) before use. SDS’s may be downloaded from www.crown-chem.com.

**Technical Specifications**

- **Appearance:** Clear Liquid
- **Odor:** Characteristic
- **pH (1% solution, 22°C):** <8.0
- **Foaming:** Moderate
- **Flash Point:** None
- **Density (lbs/gal, 22°C):** 8.35 ±0.1
- **Stability Range:** 40-100°F
- **Free Alkalinity (as Na₂O):** None
- **Solubility (in H₂O, 22°C):** 100%

**Product Number**

18506

*One sprayer included per case*

**Packaging**

6x1 qt. case*
