## High-Gloss Silicone-Based Tire and Rubber Dressing for Car Washes and Auto Detail Shops

A premium quality, silicone-based finish coat designed especially for use on tires and other automotive surfaces made of rubber. Imparts a glossy, long-lasting shine, giving cars that "show room" appearance. Ideal for use in auto detail shops, car wash facilities, auto dealerships and most other auto service facilities. Not recommended for auto interiors.

### Directions for Use

Before use, clean tire thoroughly using a high-quality wheel cleaner. Assure that tire is completely dry before applying this product. Pour product onto a clean cloth, sponge or applicator and apply to outer wall of tire, making sure to cover completely. Do not overwet. Avoid contact with car and rim. Wipe in a circular motion to spread out product and cover evenly. Allow to dry. May be applied with a spray bottle. Avoid overspray onto vehicle surface.

### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

### Technical Specifications

Appearance	Colorless Liquid
Odor	Characteristic
pH (1% solution, 22°C)	N/A
Foaming	None
Flash Point	>74°F
Bulk Density (lbs/gal, 22°C)	6.63±0.1
Stability Range	30-100°F
Free Alkalinity (as Na <sub>2</sub> O)	None
Solubility (in H <sub>2</sub> O, 22°C)	Insoluble
Phosphate Content	None

### Product Number

87241  
87205  
87215  
87230  
87255

### Packaging

4x1 gal. case  
5 gal. pail  
15 gal. drum  
30 gal. drum  
55 gal. drum
