

# SOLID DRYSTAR™

## Solid Rinse Additive for High or Low Temp Dishmachines

A premium quality rinse additive formulated into a convenient and economical solid product. Excellent for use in high or low temperature dish machines. Helps eliminate water spotting and produces fast, crystal clear drying of glassware, dishes, silverware, and other items machine-washed items. Eliminates the need for towel drying, which is time consuming, costly and contributes to dish breakage. Ideal for soft and medium water conditions.

### Directions for Use

This product is intended to be dispensed by equipment installed and/or approved by your Service Representative. Remove cap and invert bottle on the proper solid bowl dispenser. This product should be injected into the final rinse water at a concentration of 50-200ppm, depending on operating conditions. The amount required as well as the rinsing and drying performance will be affected by water hardness, machine agitation and rinse water temperature. Your Service Representative will review these factors and make adjustments as needed to produce good results.

### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

### Technical Specifications

Appearance	Blue Solid
Odor	Characteristic
pH (1% solution, 22°C)	<8.0
Foaming	Very Low
Flash Point	NA
Bulk Density (lbs/gal., 22°C)	8.00 ±0.1
Stability Range	20-100°F
Free Alkalinity (as Na <sub>2</sub> O)	None
Solubility (in H <sub>2</sub> O, 22°C)	100%
Phosphate Content (as P)	None

### Product Number

15925

\*Bottles have grip handles

### Packaging

2x5 lb. case\*
