SPARKLE™

Foam Booster & Brush Lubricant with Lemon Fragrance

for Tunnel, Friction, & Self-Server Car Washes

High active, mildly acidic detergent designed for use in tunnel, friction and self-serve car washes. Provides excellent lubricity to bristles and cloth while generating abundant, long-lasting foam that clings to vertical surfaces and emulsifies soil and grime. Fortified with chelants and mild organic acids. May be applied through foam guns or foaming wands, or by direct feed to bristles or cloth. Improves the performance of clear coat protectants and drying agents by removing soils, neutralizing alkalinity and reducing water spotting. Great fragrance for enhanced customer appeal. Pumps easily in all temperatures. Highly dilutable and economical to use.

Directions for Use

Apply this product through foaming equipment at a dilution rate of 128:1 - 512:1 (approximately ¼ to 1 oz. per gallon of water). Adjust as needed to achieve desired foam level. Follow with application of clear coat protectant, drying agent, etc. Do not allow solutions to dry on automotive surfaces.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Yellow Liquid
Odor	Lemon Fresh
pH (1% solution, 22°C)	<4.0
Foaming	Very High
Flash Point	None
Bulk Density (lbs/gal, 22°C)	8.61±0.1
Stability Range	50-100°F
Free Alkalinity (as Na ₂ O)	None
Solubility (in H ₂ O, 22°C)	100%
Acid Type(s)	Phosphoric

Product Number

82605-L
82615-L
82630-L
82655-L

Packaging

5 gal. pail
15 gal. drum
30 gal. drum
55 gal. drum
