

TITAN™

Soak Tank Detergent for Grease and Baked-On Carbon

Formulated to remove stubborn deposits of built-up grease and baked-on carbon from kitchen utensils. Designed for soak cleaning of pots and pans, oven racks, fryer baskets and trays, as well as removable parts from grills, stoves, barbecues, exhaust fans, hoods, and filters. Fortified with a powerful alkali blend for unsurpassed penetration and removal of difficult soils. Non-fuming and non-flammable. Not recommended for use on aluminum, tin, pewter or other non-ferrous or galvanized metals. Do not use on utensils having painted or varnished areas.

Directions for Use

Dilute approximately 6-8 ounces of this product per gallon of hot water in the soaking vessel. Mix solution thoroughly to assure uniform results, then carefully immerse utensils into solution. Avoid splashing. Soak for 30-120 minutes depending on the amount of greasy or carbon-encrusted soil. Soak overnight for very heavy stains or soil accumulations. After soaking, wash utensils in a three compartment sink or process through dishmachine. If soak cleaning of aluminum or other non-ferrous utensils is desired, consult your Service Representative for more information.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Colorless Liquid
Odor	Characteristic
pH (1% solution, 22°C)	>11.5
Foaming	None
Flash Point	None
Bulk Density (lbs/gal, 22°C)	12.10 ±0.1
Stability Range	60-100°F
Free Alkalinity (as Na ₂ O)	Very High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None
