

ULTRABUILT™

Heavy Duty Laundry Detergent with Alkaline Break

Premium quality, highly concentrated laundry detergent with built-in alkaline booster. Formulated to provide excellent soil penetration, color retention, soil suspension, non-redeposition, and optical brightening. Designed for use as a “one shot” product in institutional and industrial laundries. Safe for use on most laundry washable fabrics, including cotton and synthetics (not recommended for use in home machines).

Directions for Use

The amount of product to be used will vary according to the load size, soil type and amount, water conditions, and other factors. Your Service Representative will analyze these variables and set up dispensing equipment and usage concentration accordingly. In general, use 1 to 4 ounces of this product per 50 lbs. of load size where normal soil levels and water conditions are present. When using this product, it is recommended that an alkaline neutralizer or souring agent be injected during the final rinse cycle to remove any alkaline residue and restore the fabric's natural pH.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Blue Liquid
Odor	Lemon Fresh
pH (1% solution, 22°C)	>11.5
Foaming	Moderate
Flash Point	N/A
Bulk Density (lbs/gal, 22°C)	9.60 ±0.1
Stability Range	60-100°F
Free Alkalinity (as Na ₂ O)	Very High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None
