

## Technical Data Sheet

Residual  
Bacteriostatic  
Activity

# UltraSaniSoft™

## Bacteriostatic Laundry Softener Concentrate with Residual Bacteriostatic Activity

Before use, consult product label for directions on preparation of use solutions and cleaning procedures.

This product is a laundry sanitizer and softener for use in industrial and institutional laundry applications. When used as directed, this product provides residual bacteriostatic activity. Use 1.00 fluid oz. of this product per 100 lbs. of fabric. Use a maximum of 60 gallons of water per 100 lbs. of fabric. To soften laundered fabrics and obtain residual bacteriostatic activity against gram negative and/or gram positive odor-causing bacteria, dilute the appropriate amount of this product in one to two gallons of water and then add to the wash-wheel at the beginning of the final rinse cycle. Repeat the treatment of fabric with this product after each washing.

### Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Consult the label for this product before use to determine dilution, application and cleaning procedures. The label will also contain detailed information on the dilution level and contact time required to achieve effective sanitizing. Also consult the label for precautionary statements, first aid, environmental hazards, handling, storage and disposal information.

### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

### Technical Specifications

Appearance	Blue Liquid
Odor	Characteristic
pH (1% solution, 22°C)	<7.0
Foaming	Moderate
Flash Point	>100°F
Bulk Density (lbs/gal, 22°C)	7.80 ±0.1
Stability Range	50-100°F
Free Alkalinity (as Na <sub>2</sub> O)	None
Solubility (in H <sub>2</sub> O, 22°C)	100%
Phosphate Content (as P)	None

### Product Number

28705  
28715

### Packaging

5 gal. pail  
15 gal. drum
