

VANQUISH™

Oxygen Fortified Stain and Odor Remover for Carpet, Tile and Grout

A professional strength oxygen releasing compound formulated to remove stains and odors from carpet, tile and grout. Excellent for organic stains including wine, blood, tea, coffee, cola, vomit, feces, urine and much more. Uses the power of natural oxygen to attack and oxidize stains. Safe on most surfaces; will not remove colors like chlorine bleach. Formulated for outstanding results in commercial and residential applications, including challenging requirements in restaurants, apartment buildings, commercial offices and traffic lanes. May be used as an additive to prespray or wall washing solutions for improved soil and stain removal. Excellent for stains and odors from pets and smoke damage as well. Low foaming. Safe to use, non-toxic and biodegradable.

Directions for Use

Important: Before use, test in an inconspicuous area to assure colorfastness of material being cleaned. Not for use on silk or wool. Keep powder container closed and away from combustible materials when not in use.

For Use as a Carpet Stain and Odor Remover: Prepare a ready-to-use solution by dissolving 8 ounces of this product per gallon of hot water. For best results, use the hottest water available ($\geq 120^{\circ}\text{F}$). Mix well to dissolve powder completely. Product strength will begin to dissipate once powder is dissolved (indicated by fizzing of the water), so use solution immediately; do not store for later use. Do not apply solutions using a closed container such as a garden sprayer, as oxygen release will create internal pressure. Apply solution by pouring directly onto stains. For larger stained areas, such as traffic lanes, saturate well by pouring solution directly from a pail onto soils. Spread and agitate solution into carpet using extraction wand or groomer. Remember that the stained area in the pad below will be much larger than what is visible on the carpet. Allow 30 minutes contact time to oxidize stains, then extract area using a flood extraction tool. No subsequent rinsing is required. Dry area with fans. Dispose of excess solution; do not use elsewhere.

For Use as a Tile and Grout Cleaner: Prepare a ready-to-use solution by dissolving 8 ounces of this product per gallon of hot water. For best results, use the hottest water available ($\geq 120^{\circ}\text{F}$). Mix well to dissolve powder completely. Immediately apply solution to tile and grout, agitate well with a deck brush, allow 15 minutes contact time to oxidize stains, then clean and rinse floor as usual. Dry area with fans. Dispose of excess solution; do not use elsewhere.

For Use as an Additive to Carpet Pre-Spray or Wall Washing Solutions: Dissolve 2 ounces of this product per gallon of carpet pre-spray or wall washing detergent. Make sure powder is completely dissolved before use. Clean as usual.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) Before Use. SDS's can be downloaded from www.crown-chem.com

Technical Specifications

Appearance	White Powder
Odor	Citrus
pH (1% solution, 22°C)	<11.0
Foaming	Low
Flash Point	NA
Bulk Density (lbs/gal, 22°C)	8.00 \pm 0.1
Stability Range	30-100°F
Free Alkalinity (as Na ₂ O)	High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None

Product Number

51947
51947
51901

Packaging

4x7 lb. case*
40 lb. pail*
100 lb. drum

*Scoop included in each bottle and pail
