Food Contact Sanitizer • Disinfectant • Cleaner • Virucide* • Deodorizer

For Use in Food Processing Plants, Dairy, Restaurants, Supermarkets, Breweries, Wineries, Animal Care Facilities and Healthcare Facilities.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Before use, consult the product label for directions on preparation of use solutions, product application and cleaning procedures. The label will also contain detailed efficacy information, i.e., a list of bacteria, fungi and viruses against which this product is effective, and the dilution level and contact time required to achieve effective cleaning, sanitizing and/or disinfection. Also consult the label before use for precautionary statements, first aid, environmental hazards, handling, storage and disposal information.

Directions for Use

This product is a concentrated EPA registered food contact surface sanitizer, disinfectant, cleaner, virucide, and deodorizer. It is a highly versatile product that can be used for a variety of applications:

- As a one-step general disinfectant in hospitals and healthcare settings
- As a no-rinse sanitizer for food contact surfaces in restaurants, bars, dairies, supermarkets, breweries, wineries and food processing locations
- As a no-rinse sanitizer for beverage dispensing and sanitary filling equipment in food processing plants, breweries and other food handling operations
- As a no-rinse sanitizer for beer fermentation tanks, wine, citrus, milk and food storage tanks
- As a spray or immersion treatment to control spoilage or decay-causing bacteria and fungi in water that contacts raw fruits and vegetables
- As a disinfectant/virucide for animal premises, kennels, vehicles, stables, coops, and other handling and feeding equipment
- As a foaming cleaner and deodorizer on food and non-food contact surfaces

Disinfection and Virucidal Performance: When used as directed, this product is effective against a broad spectrum of listed bacteria, viruses and fungi, including *Enterococcus faecalis* Vancomycin Resistant (VRE), *Escherichia coli*, *Escherichia coli* (Extended Spectrum B-Lactamase) (ESBL), *Klebsiella pneumoniae* Carbapenem Resistant, *Listeria monocytogenes*, *Pseudomonas aeruginosa*, *Salmonella enterica*, *Salmonella typhi*, *Staphylococcus aureus* Methicillin Resistant (MRSA), *Staphylococcus aureus* Community Acquired Methicillin Resistant (CA-MRSA), *Staphylococcus aureus* Vancomycin Resistant (VISA), HIV-1, Hepatitis B Virus, (HBV), Hepatitis C Virus (HCV), Herpes Simplex Type 1 and 2 Virus, Norovirus and other organisms listed on the product label.

This product is included on EPA's List N of disinfectants that meet the criteria for use against COVID-19
Sporicidal Performance: This product is sporicidal against *Clostridium difficile* (C. diff) when used at 4 oz. per gallon of water with a 2 minute contact time.

Tuberculocidal: This product kills *Mycobacterium bovis* (Tb) when used at 4 oz. per gallon of water with a 10 minute contact time.

Fungicidal Activity: This product is effective against the fungi *Candida albicans* and *Trichophyton mentagrophytes* (Athlete's foot fungus) when used at 4 oz. per gallon of water with a 2 minute contact time.

Animal Premise Virucidal Performance: This product is effective against *Canine Parvovirus*, *Newcastle Disease Virus* and other listed viruses when used according to label instructions.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Clear Liquid
Odor	Characteristic
pH (1% solutions, 22°C)	<3.0
Foaming	None
Flash Point	None
Bulk Density (lbs/gal, 22°C)	9.44 ±0.1
Stability Range	40-80°F
Free Alkalinity (as Na ₂ O)	None
Solubility (in H ₂ O, 22°C)	100%
Peroxyacetic Acid Content (PAA)	5.9%
